

Ultimate Tropical North Queensland Experience

“The Natural Colour of Australia”

Experience Tropical North Queensland Like Never Before

Tropical North Queensland elicits images of unforgettable underwater scenery, luscious rainforests, rolling eucalypt savannah and perfect weather. Rarely are visitors able to experience all this diversity with a single vacation.

Until now.

A new package that brings together these three vastly different yet iconic elements within a practical timeframe and with ease has just been launched.

Introducing the “**Ultimate Tropical North Queensland Experience**”.

Undara Experience typifies the Australian Outback; rich reds, colourful characters and native iconic wildlife combine with the natural splendour of the worlds longest lava tubes. The Canopy Treehouses on the other hand brings on a cool change. Set deep in lush rainforest surrounded by the mesmerising sights and sounds of birds, tree kangaroos and platypus, it is luxury within world standard eco-practises. And no experience is complete without being a part of the underwater drama that is the Great Barrier Reef. Spend a night aboard Reef Encounter and immerse yourself in the ultimate scuba diving and snorkelling adventure in style.

Spend 5 days/4 nights surrounded by authentic tropical Queensland nature with fully eco-credentialed tour operators. All transfers, meals, accommodation and tours are included and bookings and payments can all be made through a single point of contact.

Price: \$1,950.00 per person twin share (including GST)
