

DEEP SEA DIVERS DEN

Press Release

Deep Sea Divers Den Acquires Taka Dive Adventures

Deep Sea Divers Den is proud to announce their acquisition of Taka Dive Adventures.

Deep Sea Divers Den has been operating since 1974 making it the longest established dive company in Cairns. Deep Sea Divers Den has become one of the largest dive schools in the world.

Deep Sea Divers Den currently operates two vessels. Reef Quest a 23.5 metre catamaran, launched in December 2004. She was designed to be equally at home for divers and snorkellers, catering for day trips to the Great Barrier Reef and Ocean Quest II the luxury live aboard dive vessel launched in December 2007. Ocean Quest II offers the ultimate in style and comfort for people wishing to visit the Outer Great Barrier Reef.

The acquisition of Taka Dive Adventures will greatly compliment the company and their current vessels. Taka operates to remote regions of Australia's Great Barrier Reef, offering adventure diving with the giant Potato Cod at the Cod Hole and visiting some truly amazing sites up and down the Ribbons Reefs, located within the Heritage Listed Great Barrier Reef Marine Park. The diving in the crystal clear waters of Osprey Reef in the Coral Sea is a diver's dream with 30 plus visibility, superb drop-offs and adrenalin shark action.

Regarded as one of the most respected and professional dive operators in Australia, Deep Sea Divers Den is a PADI 5 Star Dive Centre and PADI Career Development Centre. The addition of the Taka Dive Adventures to the Deep Sea Divers Den fleet further enhances this reputation, offering their customers trips to the Great Barrier Reef and beyond, they will remember forever.
